The Human Instinct | Discography | Discogs

Like all animals, humans have instincts, genetically hard-wired behaviors that enhance our ability to cope with vital environmental contingencies. Our innate fear of snakes is an example. Other instincts, including denial, revenge, tribal loyalty, greed and our urge to procreate, now threaten our very existence.

How Hardwired Is Human Behavior? - Harvard Business Review

With “The Human Instinct: How We Evolved to Have Reason, Consciousness and Free Will”, Kenneth R. Miller offers a fascinating, insightful and memorable statement on the use and abuse of modern evolutionary theory, not only by creationists and other skeptics of evolution, but especially, by those who believe that human behavior is directed solely by Natural Selection.

Robin Beck - Human Instinct (1992, CD) / Discogs

In *The Human Instinct*, Brown University biologist Kenneth R. Miller “confronts both lay and professional misconceptions about evolution” (Publishers Weekly, starred review), showing that while evolution explains how our bodies and brains were shaped, that heritage does not limit or predetermine human behavior.
